ThyssenKrupp

Discover a new dimension in building

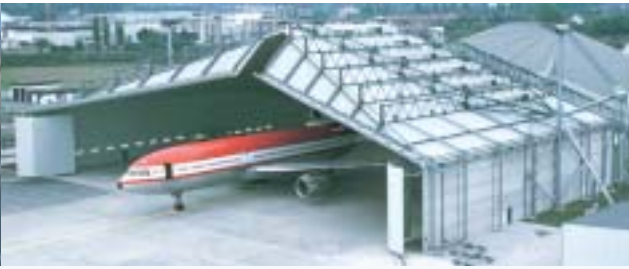

Welcome to ThyssenKrupp Bausysteme.

Discover the fascinating possibilities using coated, thin-walled steel elements for buildings. Make yourself acquainted with a building material which has unrivalled adaptability for specific project requirements. A building material, which allows optimum forms of construction in modern industrial building: top quality from a technical point of view, ecologically compatible and a unique visual appearance. A material created for our time.

ThyssenKrupp Bausysteme open up new dimensions in airport buildings using innovative products and a service which will be of great value to you - including qualified advice at the project stage, support in planning and perfect logistics.

Our product range includes

- complete façade systems
- floor systems
- car parks

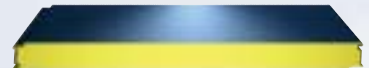

Please ask for detailed information on items of interest - We will be pleased to give you advice specifically tailored to suit your requirements.
